& SITE**

**We want all children reading at grade level by third grade
To be successful we need the entire community involved**

In 2012, the **All-America City Award** will be given by The National Civic League to 10 communities that develop the most comprehensive, realistic, and sustainable plans to increase grade-level reading proficiency by the end of third grade.

The award-winning communities will be chosen based on strategies developed in three areas that have real potential to drive improvements in grade-level reading:

- **school readiness**
too many young children show up for school not ready to learn
- **school attendance**
too many children in grades K-3 miss too many days of school
- **summer learning**
too many children in the early grades lose ground over the summer months
